

Agrocéan Fe

EU fertilizer with Iron

INGREDIENTS PRESENTATION

Concentrate of Laminaria208,00 g/l
.....16,00 %
Iron (Fe) chelated with EDTA.....5,00 %
soluble in water

INSTRUCTIONS FOR USE COMPATIBILITY

Agrocéan Fe is applied as a foliar spray diluted in water to give satisfactory coverage, usually between 0,3 and 1 %.

Agrocéan Fe can be mixed at the time of spraying with various phytosanitary agents to improve their effectiveness*.

Poor **Agrocéan Fe** at least in the sprayer.

* This supplier is not liable for the results of these indications. For any other mixture, run a test spraying or consult **Agrocéan**.

Certificated for organic farming

INTERESTS

Agrocéan Fe, based on the concentrate of laminaria (deep seaweed), stimulates the photosynthesis and improves the defences against the Iron deficiencies.
